Experience the process of painting and what it's like to be a painter! Tempera paint is a medium with many desirable qualities. It is inexpensive, has bright, pure colors, and is non-toxic. Good premium tempera paints are readily available and easy to work with.

Children will learn how to mix complementary and analogous colors and tints and shades. They will learn how to handle a brush and paint their own compositions. Students will be exposed to a new artist, painting style, and theme each week.
